

Urbanisation

Field Sketch

TASK 1:

Complete a field sketch of the urban area, local to the school. Identify as many geographical features in that urban area as possible. Annotate (label) your sketch. Classify the features as human or physical.

TASK 2:

Select FIVE human AND FIVE physical elements. Complete the two tables on the next page, identifying the ways in which the natural world impacts with the human world and vice versa. This highlights the interaction between the two parts of the environment in the sketch that you have completed.

Natural Feature		Built Impact
Built Feature		Natural Impact

TASK 3:

Use the information above to complete an explanation on the following question.

Explain the interaction of the physical and human elements of the environment.

How is the natural environment impacted by urbanisation?

How is the natural environment important to people living in urban areas?

Please complete this task in your workbook
