# Landform Riddles!

What kind of landform has a vent at the top,  
Spews lava and steam and pieces of rock?

What kind of landform has very steep sides  
That were cut by a river's erosion and time?

You get to this landform when oceans run dry.  
They're broad, flat spaces under the sky.

What kind of landform is tallest of all  
With a spiky top where snow may fall?

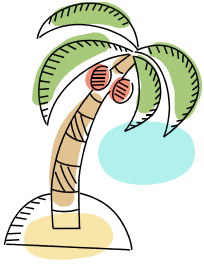

What kind of landform always runs downhill  
And can be used to turn turbines that power a mill?

What kind of landform is a huge chunk of water  
That takes up three-fourths of the Earth, and is salty?

Name: \_\_\_\_\_ #: \_\_\_\_\_ Date: \_\_\_\_\_

This landform is found at the bottom of mountains  
And very tall hills; it's the low land between them.

To get to this landform, a boat you may ride  
Since water surrounds it on every side.

Which type of landform stretches into the tides;  
Surrounded by water on three of its sides?

This large body of water is surrounded by land.  
It's a great place to fish and swim, if you can.

When the wind and the rain wear a mountain away,  
The mound that is left is this landform, they say.

Which type of landform is just one of seven?  
It's a really big place split up into nations.
