

**ASSESSMENT TASK 2 – INVESTIGATION
DO MNEMONICS IMPROVE MEMORY?**

Name: _____

DRAFT COPY

ABSTRACT

INTRODUCTION

General background information/theories:

Literature review:

Aim:

Operational hypothesis:

Independent variable:

Dependent variable:

DATA COLLECTION METHOD

Participants:

Materials:

Procedure:

RESULTS

Tables and/or graphs:

Description of data:

INTERPRETATION OF RESULTS

Conclusions relating to the hypothesis and relevant psychology theories:

DISCUSSION AND EVALUATION

Discussion of controlled variables, reliability and generalisability.

CRITICAL ANALYSIS OF FINDINGS

Relevant methodological flaw and suggestion for improvement:

Relevant ethical considerations and whether they were adhered to:

CONCLUSION

Relates to hypothesis or research question
