

Design a Vehicle to take you to the **Centre of the Earth!**

Draw your futuristic vehicle and label it with details about how it will survive the journey. Think about how you will move through each layer of the Earth - you can invent any new technology you wish!

The outer core is incredibly hot - how will you survive?

What will life be like inside your vehicle?

How will you move into the dense, solid core?

What hi-tech equipment will allow you to drill through the hard crust?

How will your vehicle withstand the heat from the magma?

How will you move through the thick, sticky magma?
