

Water Mission invites you to join us in building future leaders that are ready to tackle the global water crisis. The Educators Think Tank, a group of volunteers with a passion for educating youth, have created educational programming for students including lessons, activities and worksheets that are fun and engaging. **For more educational activities, visit the Learn and Teach at www.watermission.org.**

Grades: 4-6 or younger with assistance

Materials: Computer, phone, worksheet, pencil

Instructions: Go to www.watermission.org and see if you can find answers to these important questions.

1. Why do you think that the man on the home page is washing his hands over a bucket instead of a sink?
2. How many people lack access to safe clean water every day?
3. How does the lack of water availability affect who goes to school?
4. Why do you think lack of water availability affects the ability to go to school?
5. When the founders of Water Mission, George and Molly Greene visited Honduras following Hurricane Mitch, they found a river that the people called "The River of Death." Why do you think they called it that?

6. How did the founders of Water Mission, George and Molly Greene, encourage local residents to trust that the water was safe to drink after it was treated by the new water treatment system?

7. When does Water Mission work to help people?

8. Where is the headquarters of Water Mission located?

9. Name four career fields or jobs that support Water Mission's work.

10. What does WASH stand for?

11. How many countries has Water Mission helped with WASH solutions?

12. Does Water Mission have employees that work in other countries? Name three.

13. What are some of the places where Water Mission has worked to provide safe, clean water?

14. What are some of the ways that other people can get involved in the work that Water Mission does?

15. Do you think that someone your age could get involved in fighting the global water crisis? If so, how?

16. Go to the Search bar and put in the name “Scotty Parker.” What did Scotty do to fight the global water crisis?

Together we can solve the global water crisis! We count on people like you to spread the word about our work and support our projects around the world. Whether you can one day raise money like Scotty Parker, or just help to raise awareness – you can do your part to bring safe water solutions to communities around the world! Thank you for taking time to participate! Visit <https://watermission.org/get-involved/learn-teach/> for more Lessons in Bucket.

Website Scavenger Hunt Solution Sheet

1. Why do you think that the man on the home page is washing his hands over a bucket instead of a sink?

Because he doesn't have a sink in his house and a bucket is how he collects water.

2. How many people lack access to safe clean water every day?

2.1 billion

3. How does the lack of water availability affect who goes to school?

43 million school days are missed every year because of the global water crisis.

4. Why do you think lack of water availability affects the ability to go to school?

Those who must spend a lot of time collecting water may not have enough time to attend school. And often the water they drink, makes them sick.

5. When the founders of Water Mission, George and Molly Greene visited Honduras following Hurricane Mitch, they found a river that the people called "The River of Death." Why do you think they called it that?

Hurricane Mitch caused much damage in Honduras. Everyone who drank from the river that served as a water source for one village died; the color of the river was dark brown chocolate; the river contained toxins and bacteria.

6. How did the founders of Water Mission, George and Molly Greene, encourage local residents to trust that the water was safe to drink after it was treated by the new water treatment system?

The Greenes drank the clear, treated water to demonstrate that it was safe.

7. When does Water Mission work to help people?

Water Mission provides safe water for in communities that don't have water or to those suffering as a result of a disaster or emergency situation.

8. Where is the headquarters of Water Mission located?

North Charleston, South Carolina

9. Name four career fields or jobs that support Water Mission's work.

Engineers, marketers, implementors, fundraisers, accountants, health educators, and project managers

10. What is WASH?

Water, sanitation and hygiene

11. How many countries has Water Mission helped with WASH solutions?

56 and counting

12. Does Water Mission have employees that work in other continents? Name two.

Africa and Asia

13. What are some of the places where Water Mission has worked to provide safe, clean water?

<https://watermission.org/our-solutions/where-we-work/>

17. What are some of the ways that other people can get involved in the work that Water Mission does?

<https://watermission.org/get-involved/>

18. Do you think that someone your age could get involved in fighting the global water crisis? If so, how?

Raise money, tell my friends, use less water...

19. Go to the Search bar and put in the name "Scotty Parker." What did Scotty do to fight the global water crisis?

He road his bike to raise money
