THE WATER
CYCLE

THE WATER CYCLE

WATER GOES 'ROUND & 'ROUND

Draw arrows in the diagram below to indicate where water moves through the water cycle. The arrows should show **evaporation** (including transpiration), **condensation**, **precipitation** and **collection**.

Precipitation

Evaporation

Condensation

Collection

Transpiration

Evaporation

Write down the change of state of the water in each part of the cycle in the above diagram.
For example, water changes from a liquid to a solid when it forms snow.

Evaporation: From a to a

Condensation: From a to a

Precipitation: From a to a

Collection: From a to a
