}
```

Name_____

Directions: Add colons and semi-colons in the correct place to complete the rule-set.

```
p {  
font-size 15px  
color blue  
background-color gray  
}
```

Name_____

Directions: Add colons and semi-colons in the correct place to complete the rule-set.

```
p {  
font-size 15px  
color blue  
background-color gray  
}
```

Name_____

Directions: Add colons and semi-colons in the correct place to complete the rule-set.

```
p {  
font-size 15px  
color blue  
background-color gray  
}
```

Name_____

Directions: Add colons and semi-colons in the correct place to complete the rule-set.

```
p {  
font-size 15px  
color blue  
background-color gray  
}
```

Name_____

Directions: Add colons and semi-colons in the correct place to complete the rule-set.

```
p {  
font-size 15px  
color blue  
background-color gray  
}
```

Name_____

Directions: Add colons and semi-colons in the correct place to complete the rule-set.

```
p {  
font-size 15px  
color blue  
background-color gray  
}
```

Name_____

Directions: Add colons and semi-colons in the correct place to complete the rule-set.

```
p {  
font-size 15px  
color blue  
background-color gray  
}
```

Directions: Add colons and semi-colons in the correct place to complete the rule-set.

```
p {  
font-size 15px  
color blue  
background-color gray  
}
```

ANSWER

Directions: Add colons and semi-colons in the correct place to complete the rule-set.

```
p {  
font-size: 15px;  
color: blue;  
background-color: gray;  
}
```

Name _____

Directions: Circle the correct way control border thickness in CSS.

border-width:10px;
border-size: 10px;
border-thickness:10px;
border-number:10px;
border-padding:10px;

Name _____

Directions: Circle the correct way control border thickness in CSS.

border-width:10px;
border-size: 10px;
border-thickness:10px;
border-number:10px;
border-padding:10px;

Name _____

Directions: Circle the correct way control border thickness in CSS.

border-width:10px;
border-size: 10px;
border-thickness:10px;
border-number:10px;
border-padding:10px;

Name _____

Directions: Circle the correct way control border thickness in CSS.

border-width:10px;
border-size: 10px;
border-thickness:10px;
border-number:10px;
border-padding:10px;

Name _____

Directions: Circle the correct way control border thickness in CSS.

border-width:10px;
border-size: 10px;
border-thickness:10px;
border-number:10px;
border-padding:10px;

Name _____

Directions: Circle the correct way control border thickness in CSS.

border-width:10px;
border-size: 10px;
border-thickness:10px;
border-number:10px;
border-padding:10px;

Name _____

Directions: Circle the correct way control border thickness in CSS.

border-width:10px;
border-size: 10px;
border-thickness:10px;
border-number:10px;
border-padding:10px;

Name _____

Directions: Circle the correct way control border thickness in CSS.

border-width:10px;
border-size: 10px;
border-thickness:10px;
border-number:10px;
border-padding:10px;

Name _____

Directions: Circle the correct way control border thickness in CSS.

border-width:10px;
border-size: 10px;
border-thickness:10px;
border-number:10px;
border-padding:10px;

Name _____

Directions: Circle the correct way control border thickness in CSS.

border-width:10px;
border-size: 10px;
border-thickness:10px;
border-number:10px;
border-padding:10px;

Directions: Circle the correct way control border thickness in CSS.

border-width:10px;

border-size: 10px;

border-thickness:10px;

border-number:10px;

border-padding:10px;

ANSWER

Directions: Circle the correct way control border thickness in CSS.

border-width:10px;

border-size: 10px;

border-thickness:10px;

border-number:10px;

border-padding:10px;

Directions: Choose the correct way to select a CSS class called “modern” in HTML.

<p> class = “modern” This is paragraph text</p>

<p class = “modern”> This is paragraph text</p>

{p} class = modern”> This is paragraph text</p>

.p This is paragraph text </p>

ANSWER

Directions: Choose the correct way to select a CSS class called “modern” in HTML.

<p> class = “modern” This is paragraph text</p>

<p class = “modern”> This is paragraph text</p>

{p} class = modern”> This is paragraph text</p>

.p This is paragraph text </p>

Directions

color rule
correctly.

color:hex

color: rgb

color: rgb

color-rgb

color:rbg

Box
is
removed
upon
purchase

ANSWER

Directions: Choose the CSS color rule that is written correctly.

color:hex(127, 53, 183);

color: rgb(127, 53, 183);

color: rgb-127, 53, 183;

color-rgb(127, 53, 183);

color:rbg(127, 53, 183);

Instructions for the teacher:

1. These quick CSS formative assessments can be used either as bell ringers or as exit slips.
2. I use one question per day, so this lasts a week.
3. There are 10 cards per page, so this cuts down on making copies.
4. Alternatively, you can post the slide of the question and have students write out the answer to eliminate copying completely and cut down on your prep work.
5. If you would like an editable copy of this document, please email me at computerscienceandcoding@gmail.com.
Thanks!
