# Urban settlement patterns in Australia and China

- Examination of urban settlements to determine patterns of concentration
- Explanation of factors influencing urban concentration eg climate and topography, transportation networks, land use of perception of liveability
- Assessment of the consequences or urban concentrations on the characteristics, liveability and sustainability of places

# Urbanisation Comparison - Australia and China

I NON I	
Describe the distribution of China's urban population.	
	City
	City  Over 10 million  5-10 million
	Over 10 million  5-10 million  Over 1 to less then 5 million
North-aest Pton	Over 10 million 5-10 million
	Over 10 million  5-10 million  Over 1 to less than 5 million  0.5-1 million  Less than 0.5 million  City cluster
Balling-Tianlin-Bohal	Over 10 million  5-10 million  Over 1 to less than 5 million  0.5-1 million  Less than 0.5 million
Balling-Tianlin-Bohal	Over 10 million  5-10 million  Over 1 to less than 5 million  0.5-1 million  Less than 0.5 million  City cluster
Beijing-Tianjin-Bohal  Mid Chine Plain  Guangariong	Over 10 million  5-10 million  Over 1 to less than 5 million  0.5-1 million  Less than 0.5 million  City cluster  Large
Beijing-Tianjin-Bohal  Mid Chine Plain  Guangahong  Walten	Over 10 million  5-10 million  Over 1 to less than 5 million  0.5-1 million  Less than 0.5 million  City cluster  Large  Medium
Beijing-Tianjin-Bohal  Mid China Pian  Guangahong  Waltern	Over 10 million  5-10 million  Over 1 to less than 5 million  0.5-1 million  Less than 0.5 million  City cluster  Large  Medium

### TASK 2:

Use the internet to find a map of Australia's urban population distribution. Complete a T chart showing the features of the urban population in both countries.

Australia	China

## TASK 3:

Then, conduct inquiry based research on the following:

# Investigate the factors affecting urban patterns in Australia and China.

## Factors include:

- Climate and topography;
- Transport,
- Perception of liveability why do people want to live in urban areas in both countries

Construct an electronic poster containing the information above. Be sure to include pictures and make the information as interesting as you can!

# TASK 4:

# Liveability and sustainability:

- Liveability: students will be outlining the advantages and disadvantages to urban life.
- O Sustainability: A discussion of why sustainability is important in urban areas.
