Teacher Instructions

Color by Numbers Activity © Kellie Smith at Loquacious Learning 2020

Thank you for purchasing this set of guided notes from Loquacious Learning! Creating these activities takes a good amount of time, and I love to see the notes used by other teachers to benefit student learning!

What is included on the activity?

On this document, you will see the Student Copy of the activity and the Answer Key for teacher use. When you click on the pictures below, you will be prompted to make your own copy of each document. You can print these documents or share them with students digitally for completion.

How do my students complete this lesson?

The instructions on the document tell your students to use the definitions shown to the left and match the definition to the correct tags. The final picture will be revealed as each shape is filled. Your students will match the following definitions to the appropriate tags:

Tag	Definition
‹body›	The tag that contains all of the content for the web page.
‹head›	This tag defines a heading for a section of the web page.
‹div›	This tag defines a division or a section in an HTML document.
‹br›	The tag that produces a line break in text.
‹h6›	The tag for the smallest size heading.
id	This is an attribute that can be used inside an HTML element.
‹em›	The element that indicates that text that has stress emphasis. Usually appears as italics.
‹p›	The tag that defines a paragraph.
‹h1›	The tag for the largest size heading.

If you have any questions, please feel free to email me at loquaciouslearning.tpt@gmail.com.
